The DetainEMR website contains (3) types of medical progress notes to document each patient encounter. The system, through JMS integration, automatically populates the detainee's name, date of birth, and ID number. The system also auto-populates the date and time. **To create a new progress note, select progress note from the drop-down and create.**

Section 2

Subjective Complaint	Enter data here	
Duration		
Labs	X-rays	
Eye		
Head, Ears, Nose, Throat		
Lungs/Chest		
Heart	Enter data in these areas	
Abdomen		
Genito-Urinary		
Musculoskeletal		
Skin		

Enter patient data in Section 2

Psychiatrist
 QMHP

Chronic Clinic
 Due Date:

June 2017						
Su	Mo	Tu	We	Th	Fr	Sa
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	

At the bottom of Section 2, if you have spoken to the Practitioner and know the diagnosis and plan (e.g. medication orders) select "Complete and Continue."

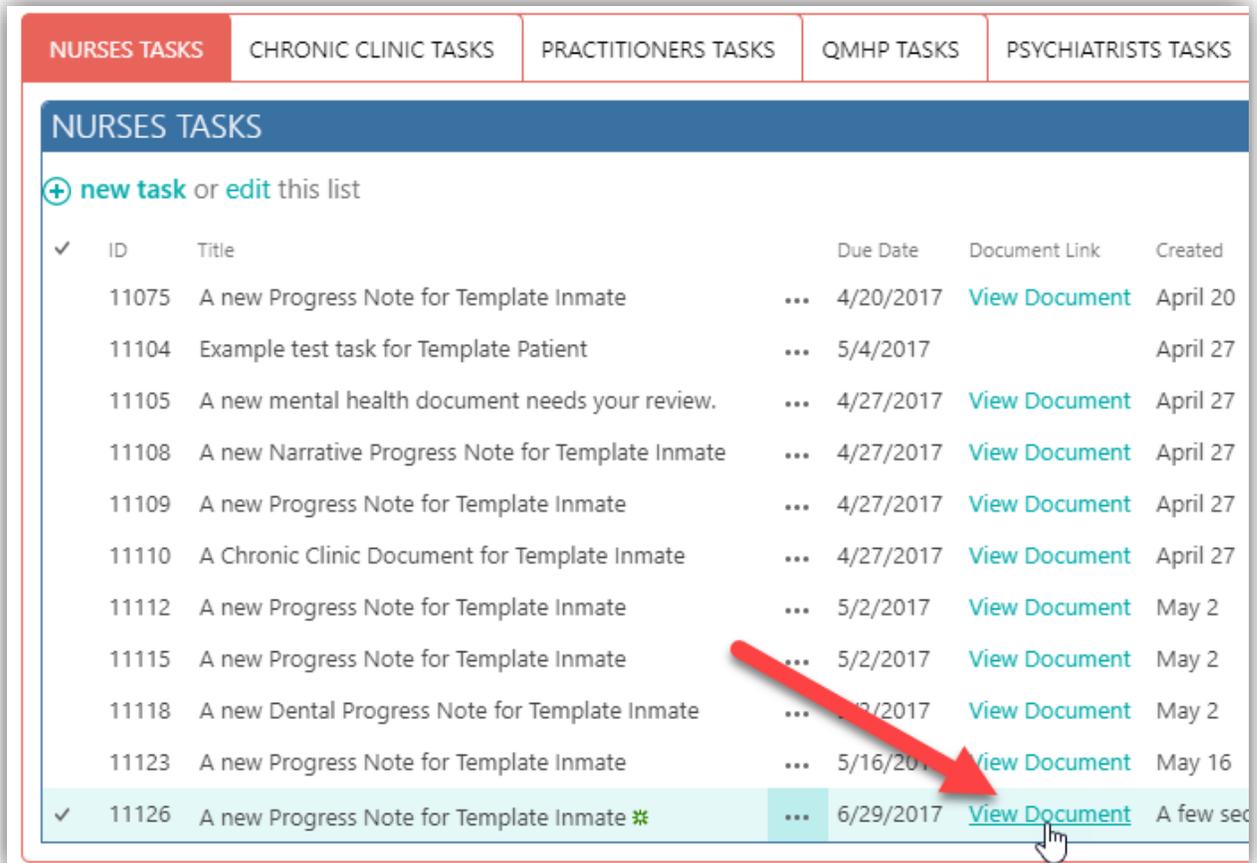

If you do not know the diagnosis and plan, and need to save the note to add the information later (e.g. after calling the practitioner or after seeing all patients), select "Complete and Send to Nurse Task List."

Referrals

The ability exists to click the button named "Refer to Psychiatry" to route the progress note to the Psychiatrist Task List for further review and evaluation.

The ability exists to click a button named “Refer to QMHP” to route the document to mental health staff on the QMHP Task List for further review and evaluation.

The ability exists to click the button “Chronic Clinic” to create a task with a due date on the Chronic Clinic Task List.

The screenshot shows a web interface with a navigation bar at the top containing five tabs: "NURSES TASKS" (highlighted in red), "CHRONIC CLINIC TASKS", "PRACTITIONERS TASKS", "QMHP TASKS", and "PSYCHIATRISTS TASKS". Below the navigation bar is a header for "NURSES TASKS" with a blue background. Underneath the header, there is a link to "new task" and "edit this list". The main content is a table with columns: "ID", "Title", "Due Date", "Document Link", and "Created". The table contains several rows of tasks. A red arrow points to the "View Document" link in the row with ID 11126. A mouse cursor is positioned over the "View Document" link in the same row.

ID	Title	Due Date	Document Link	Created
11075	A new Progress Note for Template Inmate	4/20/2017	View Document	April 20
11104	Example test task for Template Patient	5/4/2017		April 27
11105	A new mental health document needs your review.	4/27/2017	View Document	April 27
11108	A new Narrative Progress Note for Template Inmate	4/27/2017	View Document	April 27
11109	A new Progress Note for Template Inmate	4/27/2017	View Document	April 27
11110	A Chronic Clinic Document for Template Inmate	4/27/2017	View Document	April 27
11112	A new Progress Note for Template Inmate	5/2/2017	View Document	May 2
11115	A new Progress Note for Template Inmate	5/2/2017	View Document	May 2
11118	A new Dental Progress Note for Template Inmate	5/2/2017	View Document	May 2
11123	A new Progress Note for Template Inmate	5/16/2017	View Document	May 16
11126	A new Progress Note for Template Inmate ✱	6/29/2017	View Document	A few sec

To finish the progress note after calling the practitioner, go to the “Tasks” icon under the “Medical” tab. Find your Progress Note and click “View Document.” Section 3 will display:

Section 3

Practitioner Assessment

Enter data for assessment (what the practitioner tells you) as well as the follow-up instructions. If medications are ordered, enter them in the Drug Order screen below. Please see "Medication Administration, New Drug Order" for more information. The data entered in the Drug Order screen will populate under the "Plan" section. It will also be placed on the OfflineMAR and Pharmacy Order Form when "Process Drug Orders" icon is selected under "Medical" tab. When finished, click "Complete and Send to Practitioner Task List." This will place the note on the task list for the Practitioner to sign.

Electronic Narrative Progress Note

This form was designed for Subjective, Objective, Assessment, and Plan information and is auto populated with the same information as the Electronic Medical progress note. However, this narrative note is free-form and has no workflow assigned to it. It is commonly used for follow-up documentation and other notes. The note is automatically routed for practitioner signature/timestamp when completed. The Referral Options are the same as on the Electronic Progress Note.
